

Spinors In Hilbert Space

by Roger J Plymen P. L Robinson

Spinors in Hilbert space Mathematical Proceedings of the . Do Dirac field states belong to a Hilbert space with spinor coefficients? The quantized Dirac field at a certain space-time point can be written (roughly) as a linear combination of creation operators acting on the Hilbert space of physical states, with coefficient that are free field harmonic solutions. Spinors in Hilbert Space by Paul Dirac. Title Spinors in Hilbert Space. Hilbert Space The words Hilbert space here will always denote what mathematicians call a separable Hilbert space. It is composed of vectors each with a denumerable infinity of coordinates q_1, q_2, q_3, \dots . Usually the coordinates are considered to be complex numbers and each vector has a squared length $\sum |q_i|^2$. Spinors in Hilbert space / [by] P. A. M. Dirac. - Version details - Trove 1.
